

CAT LITTER

Quick-Paw Natural & Organic Cat Litter

Cat litter is ideal for sprinkling for demanding cat hygiene. This naturally obtained sprinkle without bleach and dyes addition, contributes to the maximum cleanliness of the small cat toilet, and in the same time it is safe for drains and dirty sprinkle can be safely spilled into the toilet bowl. Cat litter has a power to absorb large amounts of the liquid and also form small solid lumps in which the liquid is trapped. Just because only these small lumps need to be replaced, cat litter is extremely economical, and addition of soda increases its antibacterial effect.

COMPOSITION OF RAW MATERIALS

Sprinkle for cats from organic raw materials without bleach and dyes. Antibacterial effect with reliable absorption of unpleasant odors.

METHOD OF USE:

- Fill to a height of apx.5 cm
- Remove lumps and solid feces daily
- Supplement with fresh sprinkle after cleaning
- Change with a new sprinkle every 3 days or as needed
- 100% safe for drains
